

## Human resources development

### The present and future direction of the Haseko Group

As is

Under the slogan of “continuously produce autonomous human resources and nurture a diverse workforce that will shape the future of Haseko,” we are implementing a broad range of initiatives such as fostering autonomous human resources and career development; developing the next generation of managers, executives and operational leaders with an eye to sustainable growth; developing innovative human resources and global human resources from the perspective of nurturing human resources to realize new strategies; and DX education.

To be

In order to build a diverse and robust human resources portfolio, we will work to foster a culture of independent learning and mutual learning, as well as reskilling, including DX. In addition, we believe that expanding programs to support management-level employees, whose expected roles and level of difficulty continue to increase, will have a direct impact on the success of a diverse range of human resources, and will also lead to the development of management personnel who will play a key role in the future.

#### Enhancement of job-specific practical education

We are working to develop the young employees who hold the keys to sustainable growth to make them work-ready at an early stage through company- and department-specific curricula that are tailored to the practical work.

Our administrative career-track employees experience on-the-job sales training at the Group's sales companies to better understand the customers' voices and needs and apply them to business planning. First-year employees in design positions receive construction on-the-job training to acquire design capabilities based on the actual conditions of construction sites. We are working to improve the knowledge and collaboration of construction management staff through training in practical work in related other occupations, such as training in construction drawings.

#### Linking the autonomous human resources development program with career development

We hold training programs by job level for all job types in order to develop autonomous human resources who can think and act on their own and create their own future in the first 10 years after joining the Company.

For employees in their 10th and 20th year of employment, career plans are formulated based on dialogues with supervisors. Progress is monitored at fixed points every three years (CAP 10 System).

Believing that retaining young employees is a top priority, we promote the Be3 system (Be-Cube; a system where younger workers are given support and coaching from their seniors inside and outside the workplace during the first three years of employment).

#### Manager training

We provide management training for newly appointed section managers with the aim of developing their subordinates and creating a workplace conducive to the development of autonomous human resources, as well as guidance for new evaluators who can set and evaluate appropriate goals. In addition, we will establish D&I training from the fiscal year ending March 2025, and we will support the managers who are working to create a workplace and culture where each employee can find fulfillment in their work.

#### Systematically producing candidates for management executives, and formulating plans for the development and appointment of the next management team (succession plan)

In order to develop management executive talent, we hold selection-based Executive Leader Development Program for employees at each level. In recent years, particular efforts have been made to nurture female executives. Approximately 70 female executives (including 20 female officers) are actively serving in the Group.

In addition, newly appointed operating officers are provided with training that systematically teaches them the knowledge required of corporate managers, while newly appointed senior operating officers are provided with training to facilitate their awareness and behavioral change as managers through dialogues with lecturers.

For the purpose of selecting the next management of the Company and its affiliates, we have prepared a Group-wide list of candidates, and formulated a succession plan through discussions with the officers of our Company and its affiliates. The candidates for the Company's officers are selected based on the discussions at the Nomination and Remuneration Committee, which is comprised of five outside directors and representative directors, etc.

#### Haseko Business College (self-learning support programs)

Starting in June 2020, we launched the Haseko Business College based on the concept of lifelong learning. Offering 202 correspondence courses available for selection, the program aims to encourage each employee to develop their career by voluntarily learning what they want to learn.

#### Nurturing and allocating human resources to implement the new strategies

To develop human resources capable of enhancing productivity through operational reforms and creating new businesses, we have started the DX Academy with effect from fiscal year ended March 2022 in collaboration with Dean and Professor Ken Sakamura of Toyo University's Faculty of Information Networking for Innovation And Design (INIAD) under the leadership of the Company's President. In the first round of the course, DX training through e-learning to all Group employees (8,000 participants took the course) was delivered, and in the second round, 80 DX promotion leaders were selected from all Group companies. In the third round, which was implemented in the fiscal year ending March 2024, "DX literacy course" for all general managers in the Group was delivered.

Anticipating the future expansion of the overseas business, we have openly solicited applications for English language education programs in collaboration with external institutions since the fiscal year ended March 2017. More than 100 employees have taken the courses thus far.

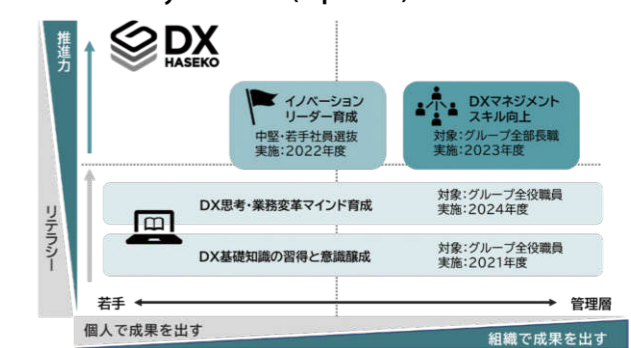

Furthermore, to realize the long-term vision for 2030 and the Plan NS, we conduct joint training with leaders from different industries and innovation education through cross-boundary learning.

#### Education on human resources development (Training)

The figures are non-consolidated data of Haseko Corporation. \*Training expense in fiscal year 2021 decreased from the previous year, mainly because the training was switched from on-site to online amid the COVID-19 pandemic.

#### DX Academy overview (Japanese)

#### Haseko Corporation's education system in the fiscal year ending March 31, 2025

<Education slogan> Continuously produce autonomous human resources and nurture a diverse workforce that will shape the future of Haseko. Bringing together individual learning and challenges, we will move to a new stage through organizational collaboration
