Haseko Discloses Information Based on the TNFD's Information Disclosure Framework ~ Evaluation of Nature-related Dependencies, Impacts, Risks, and Opportunities in the Construction-Related Business~

Tokyo, Japan, December 20, 2024--The Haseko Group (representative company: Haseko Corporation; head office: Minato-ku, Tokyo; president and representative director: Kazuo Ikegami) announced that, on December 12, 2024, it has disclosed information based on the framework of the Taskforce on Nature-related Financial Disclosures (TNFD).

https://www.haseko.co.jp/hc/csr/environment/biodiversity.html#anc_2

Aiming to become a corporate group for housing to create great living, the Haseko Group advances initiatives toward realizing its four main CSR themes*—the goal of its CSR—based on its CSR vision of "Better living now and for the future." Among the main businesses of the Group, the information disclosed this time covers the evaluation of the construction-related business, which has a large business scale and is thought to have significant impact on nature. This disclosure showed the business's impact on biodiversity conservation.

* The four themes are: creating attractive living spaces, building a company worth working at, protecting the precious environment, and nurturing a culture of trust.

The Haseko Group will continue to advance information disclosure according to the recommendations of the TNFD, with responding to biodiversity as an important management issue. At the same time, the Group will seek to realize a sustainable society and improve corporate value while monitoring government measures and social trends and responding to them appropriately.

■ Overview of TNFD disclosure in the Haseko Group

- The construction-related business was selected from among the Haseko Group's businesses as the evaluation scope for direct operations, and cement for upstream supply chain.
- Evaluation of priority locations as well as dependencies and impacts on nature were conducted for the above evaluation scopes. Based on the evaluation results, nature-related risks and opportunities in the construction industry were identified, and risk countermeasures were organized.
- Regarding the organized countermeasures, further substantiation, target setting, and progress management will be undertaken going forward.

■ Reference: About TNFD

The Taskforce on Nature-related Financial Disclosures (TNFD) is an international organization that was launched to establish a framework for companies and financial institutions to appropriately evaluate and disclose risks and opportunities related to natural capital and biodiversity. The four disclosure pillars are: (1) governance, (2) strategy, (3) risk and impact management, and (4) metrics and targets.
