# Summary of Financial Results & Topics

## Financial Results for FY2023

- In Consolidated financial results for FY2023, Net Sales increased by 6.5% year-on-year to 1,094.4 billion yen, and Ordinary Income decreased by 5.6% year-on-year to 83.3 billion yen due to the decrease in the profit ratio of construction contracts.
- ROE in FY2023 decreased by 2.0pt year-on-year to 11.6%.
- Orders Received (non-consolidated) in FY2023 increased by 11.6% year-on-year to 536.9 billion yen due to an increase in orders received from Private-sector condominiums.

## Forecast for FY2024

- In Consolidated financial results forecast for FY2024, Net Sales are expected to increase by 7.8% year-on-year to 1,180.0 billion yen, and Ordinary Income is expected to decrease by 4.0% year-on-year to 80.0 billion yen due to a decrease in profit ratio of construction contracts and an increase in SG&A.
- Orders Received (non-consolidated) forecast in FY2024 is expected to reach a record high for the second consecutive period of 580.0 billion yen due to increasing orders received from Private-sector condominiums.

## Shareholder return

- The year-end dividend per share for FY2023 increases by 5 yen, and the annual dividend per share is 85 yen.
- The annual dividend forecast per share for FY2024 is planned to be 85 yen in FY2024.

## Action to Implement Management that is Conscious of Cost of Capital and Stock Price

- Please see pages 17 to 19 for future initiatives by analyzing and evaluating the current situation.

# Main Financial Results and Forecast

(Billions of yen)

Consolidated	FY2022 (A)	FY2023 (B)	Change (B-A)	%	FY2024 Forecast (C)	Change (C-B)	%
Net Sales	1,027.3	1,094.4	67.1	6.5%	1,180.0	85.6	7.8%
Operating Income	90.2	85.7	(4.4)	(4.9%)	82.0	(3.7)	(4.4%)
Operating income ratio	8.8%	7.8%	(1.0pt)		6.9%	(0.9pt)	
Ordinary Income	88.3	83.3	(4.9)	(5.6%)	80.0	(3.3)	(4.0%)
Ordinary income ratio	8.6%	7.6%	(1.0pt)		6.8%	(0.8pt)	
Net Income ※	59.3	56.0	(3.3)	(5.5%)	53.0	(3.0)	(5.4%)
Net income ratio	5.8%	5.1%	(0.7pt)		4.5%	(0.6pt)	
EPS (yen)	216.10	205.45	(10.65)	(4.9%)	194.29	(11.16)	(5.4%)
ROE	13.6%	11.6%	(2.0pt)				
Order received (Non-consolidated)	481.3	536.9	55.7	11.6%	580.0	43.1	8.0%
Annual dividend per share (yen)	80	85	5		85	-	

※Net Income attributable to owners of parent

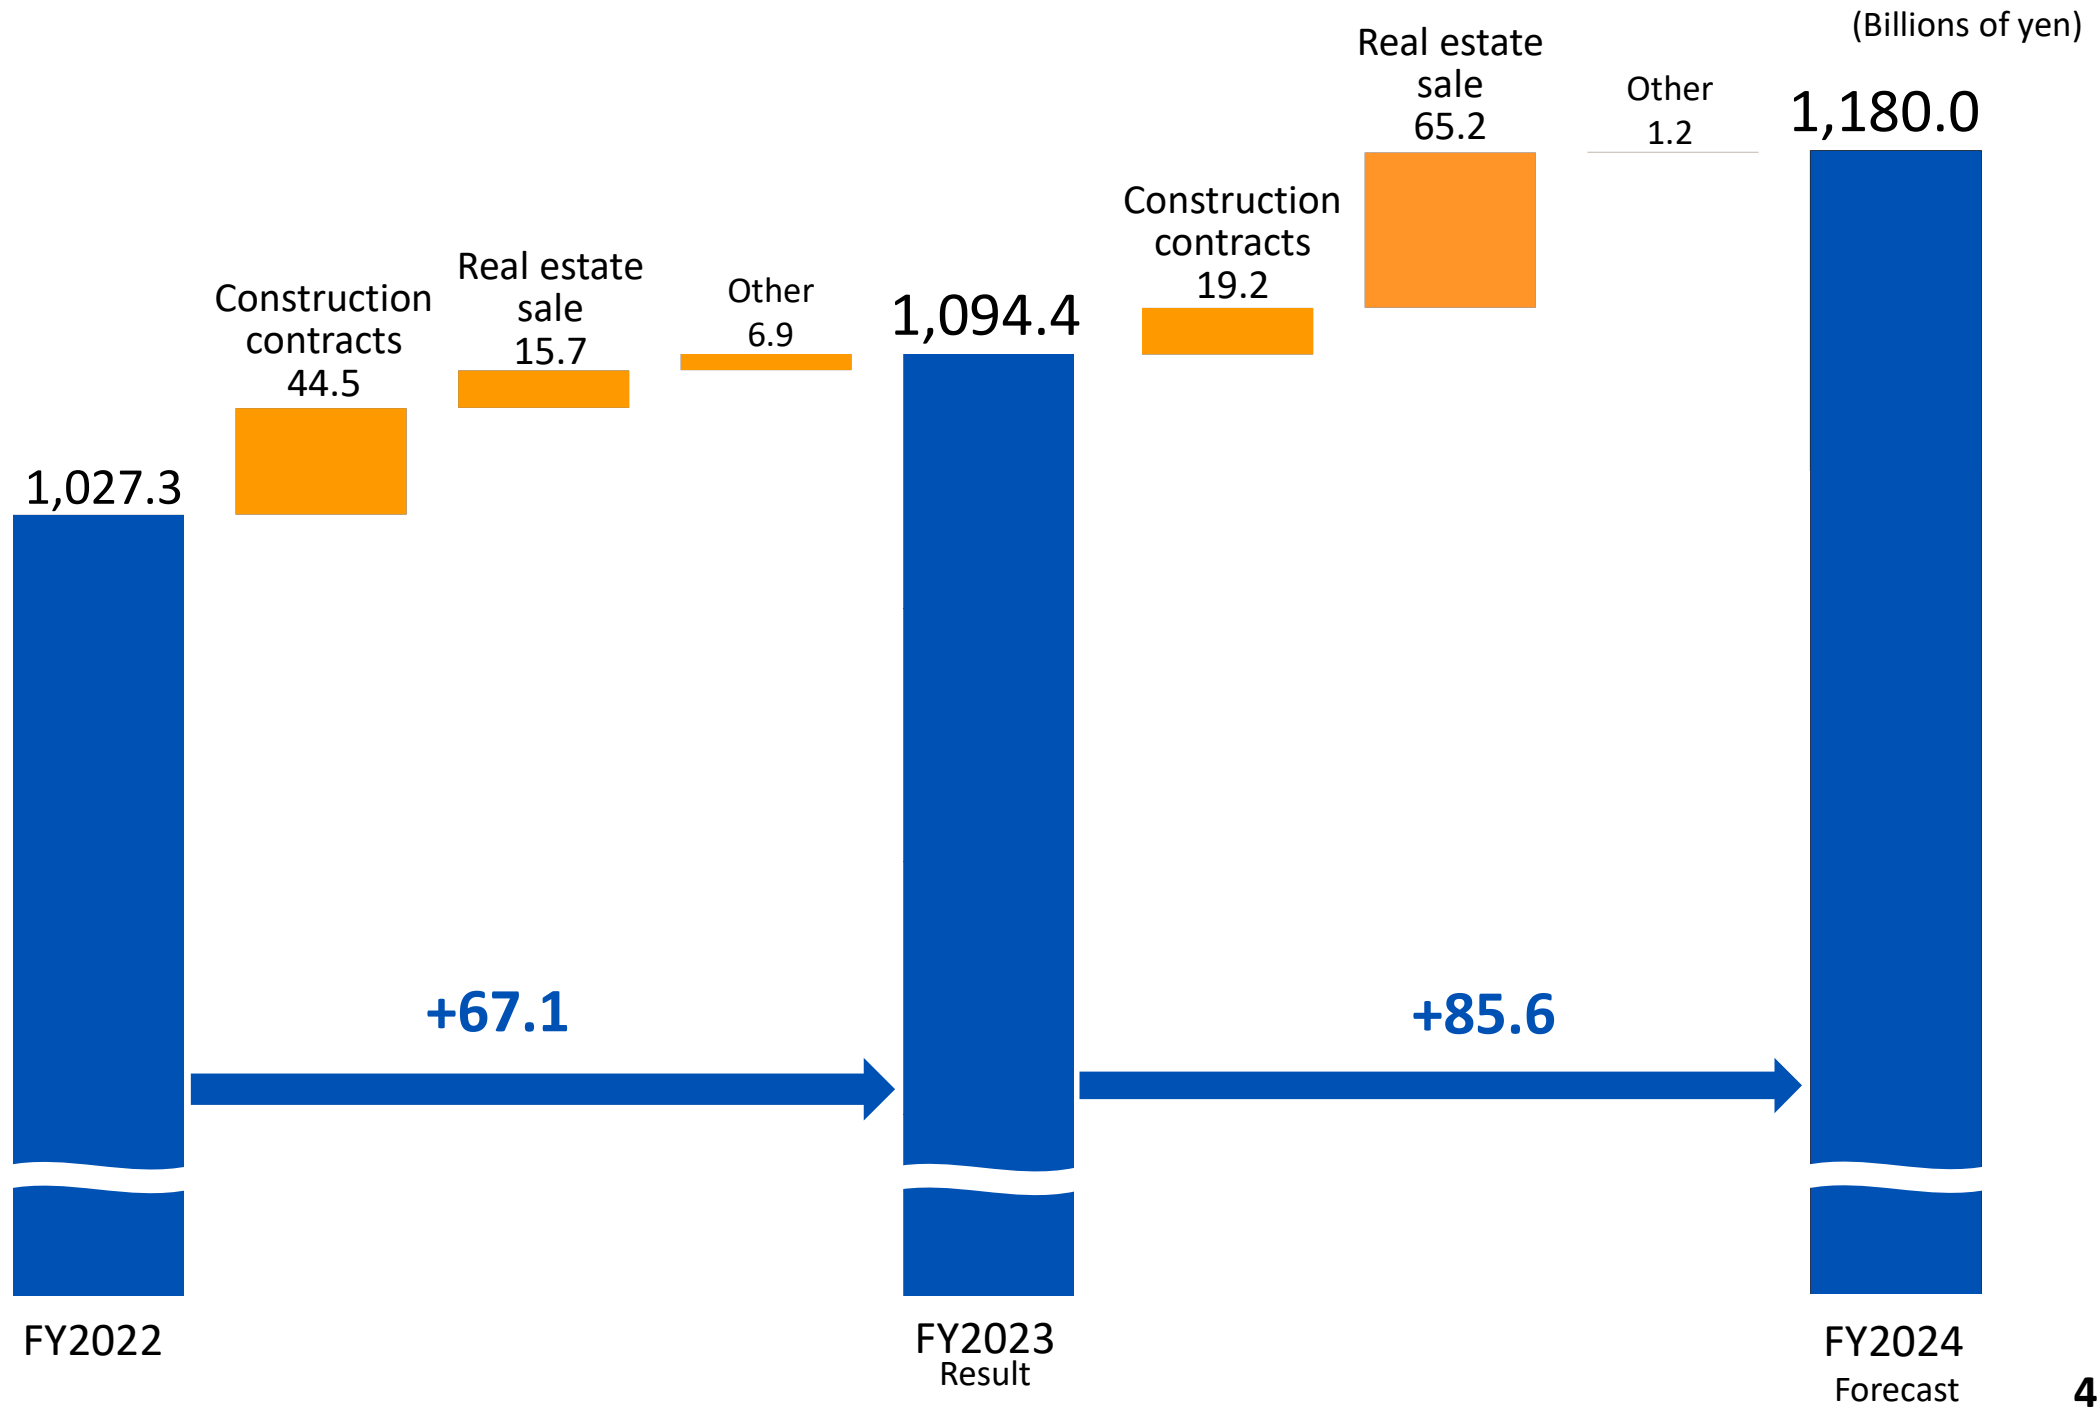

# Status of achievement of the numerical target

Progress toward the numerical target (5-year total consolidated ordinary income of 400 billion yen) is 325.3 billion yen (progress rate 81.3%) for the 4-year total consolidated ordinary income. Due to estimating a decline in profit due to a decrease in construction profit margin and an increase in SG&A, it is difficult to achieve the target of ordinary income of 100 billion yen in FY2024, but we estimate to reach the target of 5-year total ordinary income of 400 billion yen.

## Consolidated Ordinary Income

# Main factors for changes in Consolidated Net Sales

# Construction contracts Sales & Profit

- FY2023: Construction contracts Sales increased but Gross profit decreased due to a decline in the non-consolidated profit ratio due to rising prices, etc.
- FY2024(Forecast): Profits of Construction contracts are expected to decrease due to further decline in non-consolidated profit ratio due to rising prices and labor costs, etc.

## Construction contracts Sales※

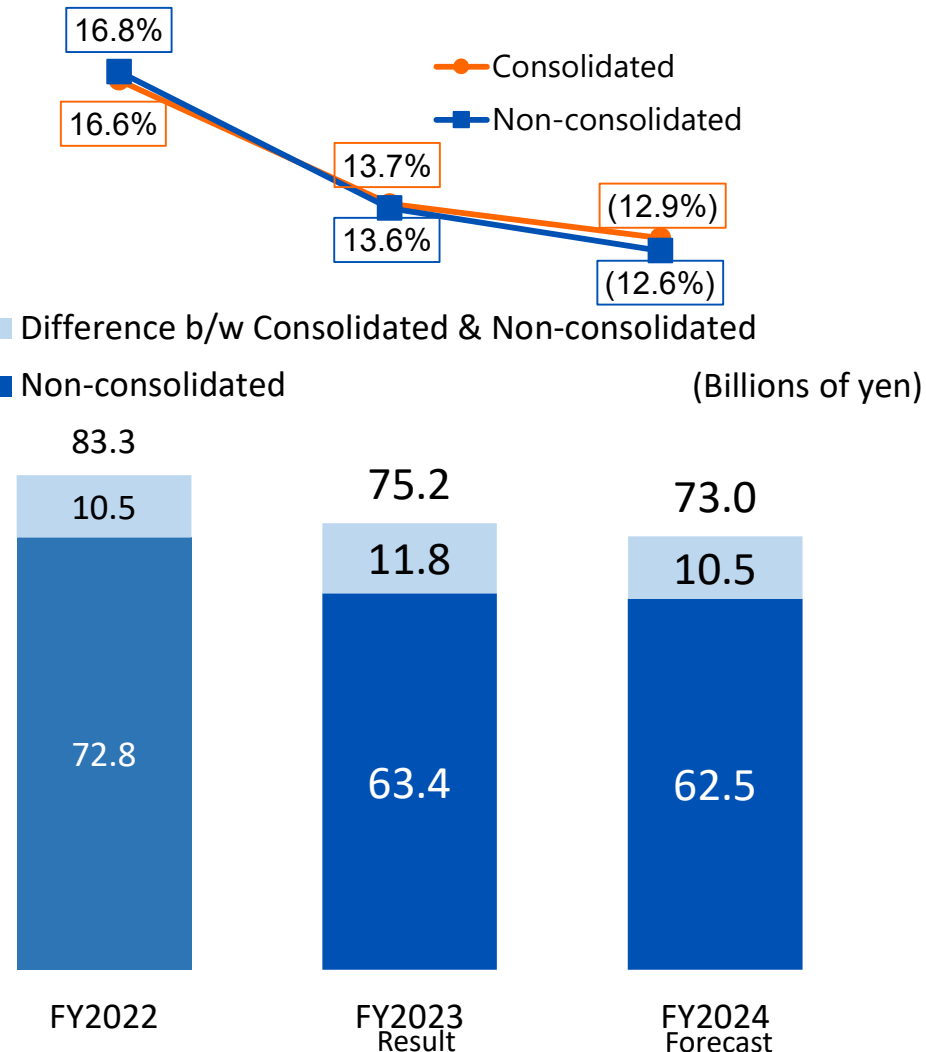

■ Difference b/w Consolidated & Non-consolidated  
 ■ Non-consolidated

## Gross Profit of Construction contracts & Profit ratio※

● Consolidated  
 ■ Non-consolidated

■ Difference b/w Consolidated & Non-consolidated  
 ■ Non-consolidated

※Construction contracts Sales and Gross Profit of Construction contracts (Non-consolidated) include Sales of Commissioned works and Gross profit of Commissioned works, respectively.

# Order Received (Non-consolidated) Result & Forecast

- FY2023: Order Received was 536.9 billion yen due to an increase in Private-sector condominiums and Rental condominiums & Company housing, etc.
- FY2024 (Forecast): Order Received is expected to reach a record high for the second consecutive period of 580.0 billion yen due to a further increase in Private-sector condominiums.

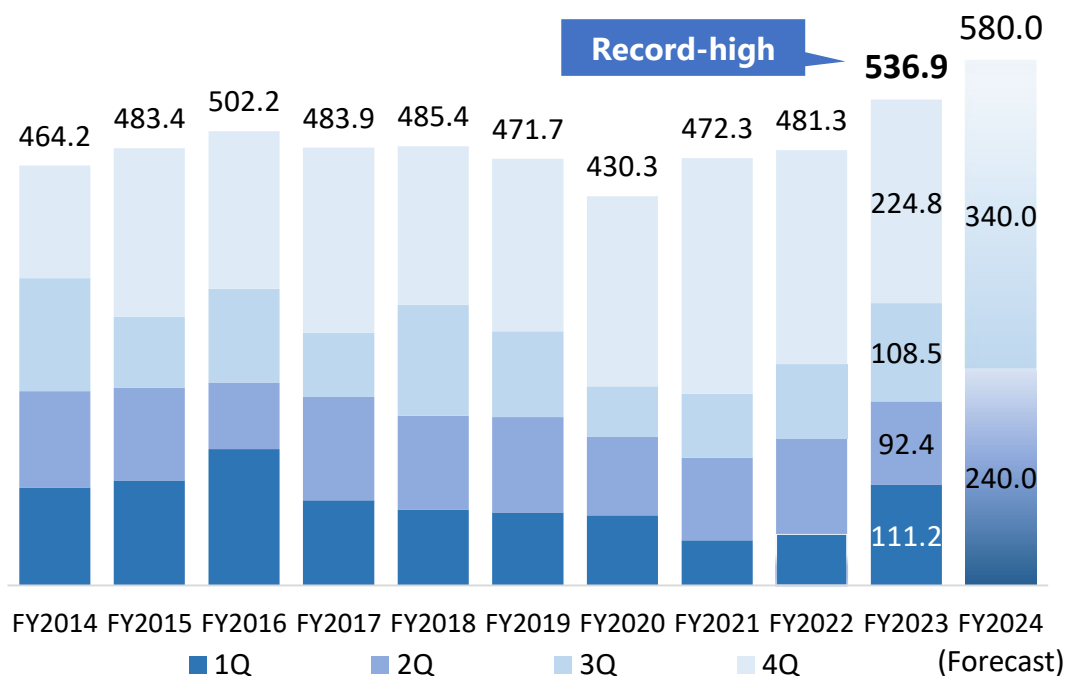

(Billions of yen)

	FY2022	FY2023 Result			FY2024 Forecast				
	Annual	Annual	Change (y/y)	%	1 <sup>st</sup> Half	Change (y/y)	Annual	Change (y/y)	%
Construction business	467.8	519.6	51.8	11.1%	234.0	38.0	565.0	45.4	8.7%

# Main factors for changes in Consolidated Ordinary Income

(Billions of yen)

# Main factors for changes in Consolidated Balance Sheets

(Billions of yen)

(Note) Real estate (Current Asset) : Real estate for sale + Cost and advances for real estate operations + Real estate for development projects  
 Real estate (Fixed Asset) : Property and equipment Land leasehold rights

# Breakdown of Real estate balance by use

The above real estate balance are total of Real estate for sale, Costs and advances for real estate operations, Real estate for development projects, Property and equipment Land leasehold rights on Consolidated Balance Sheets

- **Land for orders:** Land for receiving construction orders, etc. by providing land for project owners
- **For-sale Condominium business:** For-sale condominiums business and new for-sale houses business
- **Other real estate for sale:** Income property for sale of whole rental condominiums, renovation business and etc.
- **Leasing real estate business:** Including sales to Private REIT
- **Real estate for own use:** Paid facilities for the elderly, Technical research institutes and others
- **Overseas related business:** Development in Hawaii State

# Interest-bearing debt and Shareholders' equity

# Consolidated Cash Flow

- Net cash provided by (used in) operating activities improved significantly due to sales of land for order, a recovery of notes and accounts receivable, and an increase in deposits.
- In Net cash provided by (used in) investing activities, the investments of rental condominium businesses and overseas businesses (mainland US) were promoted.
- Free Cash Flow improved significantly and Cash and cash equivalents at the end of the period increased.

(Billions of yen)

	FY2022	FY2023	Change
<b>Net cash provided by (used in) operating activities</b>	<b>(51.9)</b>	<b>115.0</b>	<b>166.9</b>
<b>Net cash provided by (used in ) investing activities</b>	<b>(55.4)</b>	<b>(39.8)</b>	<b>15.6</b>

<b>Net cash provided by (used in ) financing activities</b>	<b>50.8</b>	<b>(0.8)</b>	<b>(51.5)</b>
<b>Cash and cash equivalents at end of the period</b>	<b>208.3</b>	<b>283.5</b>	<b>75.2</b>

# **Action to Implement Management that is Conscious of Cost of Capital and Stock Price**

---

# Realization of current situation for improving corporate value

- HASEKO recognizes that the cost of shareholders' equity is between 6 and 9% using CAPM (Capital Asset Pricing Model).
- Although the current medium-term management plan does not set the numerical targets for capital efficiency, we believe that ROE has exceeded the cost of capital for the past 10 years.
- The reasons for the decline in ROE are considered to be a decline in construction profit margins due to rising material and labor costs, an expanding real estate-related business, and increasing costs and general and administrative expenses to improve working conditions.
- PER has maintained under 10 times for a long while, and we speculate that Haseko's growth expectations are low from the stock markets.

※The EPS to calculate PER is one as of the initial forecast, and if the earnings forecast is revised during the period, the revised EPS is used.

# Initiatives for improving corporate value

- In order to raise the stock price level, it is essential to foster trust and expectations regarding HASEKO’s future potential.
- **We are currently discussing a new medium-term business plan that will start in April 2025 and we are planning to set capital efficiency indicators as numerical targets. Although ROE is declining, we will first try not to decline ROE below 10%. And we strive to manage our business with an emphasis on more efficiency.**

## — Specific measures in the current medium-term management plan —

Initiatives in business activities	<ul style="list-style-type: none"> <li>● Improvement of construction profit margin (DX / Industrialization promotion, etc.)</li> <li>● Improvement of turnover rate in real estate business (Private REIT, Private fund, etc.)</li> <li>● Initiatives for future growth (Investments for realizing DX, Investments to introduce advanced technology, etc.)</li> </ul>
Shareholder return	<ul style="list-style-type: none"> <li>● Set the total return ratio calculated from the sum of net income attributable to owners of parent for 5 fiscal years (FY2020~FY2024) at about 40%</li> <li>● Set the minimum annual dividend per share at 80 yen and continue to provide stable dividends.</li> <li>● Share buyback flexibly based on business environment, growth investment opportunities, company stock price level, improvement of capital efficiency, etc.</li> </ul>
Initiatives in sustainability	<ul style="list-style-type: none"> <li>● Promotion of “HASEKO ZERO-Emission” in response to climate change</li> <li>● Promotion of human capital management</li> <li>● Enhancing disclosure and transmission to stakeholders</li> </ul>

- FY2023: The year-end dividend per share increases by 5 yen, and the annual dividend per share is planned to be 85 yen.
- FY2024: The annual dividend forecast per share for FY2024 is planned to be 85 yen, the same as FY2023.

## Annual dividend per share (yen)

### Shareholder return policy in Medium-term business plan

- Set the minimum annual dividend per share at 70 yen (Changed the minimum annual dividend to **80 yen** since FY2021)
- Set the total return ratio calculated from the sum of net income attributable to owners of parent for 5 fiscal years at **about 40%**

# **Medium-term Business Plan**

## **“HASEKO Next Stage Plan”**

---

**Status of efforts for priority strategies**

## Name of the Plan

H A S E K O N e x t S t a g e P l a n (Plan NS) ~ Aiming for growth to the Next Stage~

## Period Covered by the Plan NS

The fiscal year ending March 2021 – The fiscal year ending March 2025 (5 years)

## Basic Policies

1. Strengthen corporate management that builds on both the Construction-Related Business, which primarily targets the market for new housing supply, and the Service-Related Business, which is centered on the market related to existing residences, etc.
2. Deepen coordination among the Group companies and realize a corporate entity that proves to be worthy of the trust received from urban dwellers
3. Provide safe, reliable and comfortable housing and urban environment
4. Establish a stable profit base through growth strategy investment
5. Maintain a strong financial base and enhance shareholder returns
6. Challenge for new endeavors from a medium- to long-term perspective
7. Focus on establishing CSR management

## Focused Strategies

1. Strengthen competitiveness of core businesses
  - Expansion of construction-related business domain, ■ Expansion of redevelopment and reconstruction business / response to compact city,
  - Continuation and strengthening of service-related business
2. Expansion of investment in real estate related business
  - Expansion of business area for condominium sales business, ■ Rental properties holding and development business
3. Initiative for future growth
  - Investment for realizing digital transformation (DX), ■ Investment for introducing advanced technologies by value, technology and innovation division,
  - Investment in overseas business, ■ New investment, ■ Investment in human assets
4. Investment plan
5. Financial strategy and shareholder returns
6. Initiatives of CSR management

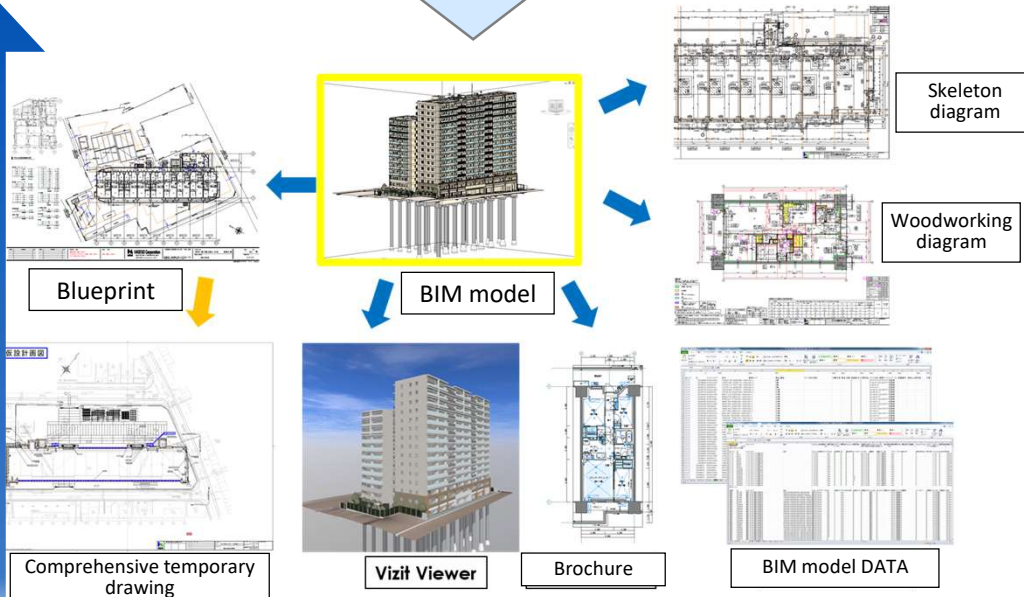

# Promote DX at construction site / Utilize BIM at construction site

HASEKO is enhancing to achieve a 20% increase in productivity by FY2024, which is the target of the current medium-term management plan. By a productivity revolution through further use of DX, HASEKO will transform construction sites into smarter, more comfortable construction sites to work.

## Transmit BIM design and construction operation rules

By transmitting unified BIM design and construction operation rules, we will aim to achieve common understandings between design and construction departments and improve the accuracy of BIM models.

**BIM Design Construction Issuance of operation rules**  
(periodically informed every Mar. and Sep.)

By transmitting the BIM design and construction operation rules at the design stage, we will improve the accuracy of the BIM model. As a result, it will lead to improved accuracy of blueprints, skeleton diagrams, and woodworking diagrams produced from BIM models.

## Landslide protecting H steel horizontal sheet pile quantity estimation

The landslide protecting construction company uses BIM to model and visualize the landslide protecting plan. Haseko integrates the excavation model and estimates the number of the H steel horizontal sheet piles from the landslide protecting data.

積算結果:

リスト ▼

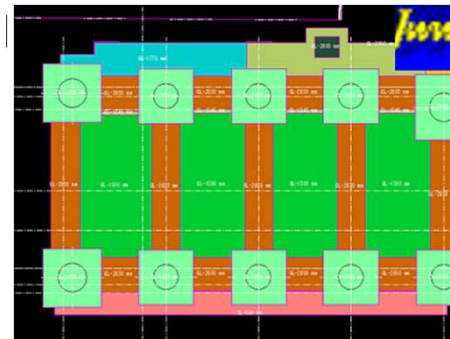

0	CASE-6 : 板厚 45 : 89.0 m2
1	CASE-5 : 板厚 35 : 59.8 m2

By visualizing the relationship between the excavation shape and the retaining area, the retaining area is clearly defined.

By getting information on the thickness and number of square meters of H steel horizontal sheet piles for each excavation area in the landslide protecting plan we can order H steel horizontal sheet piles.

## Automatically creating excavation diagram

Automatically create excavation diagrams based on the construction drawing model and send the data to the construction site.

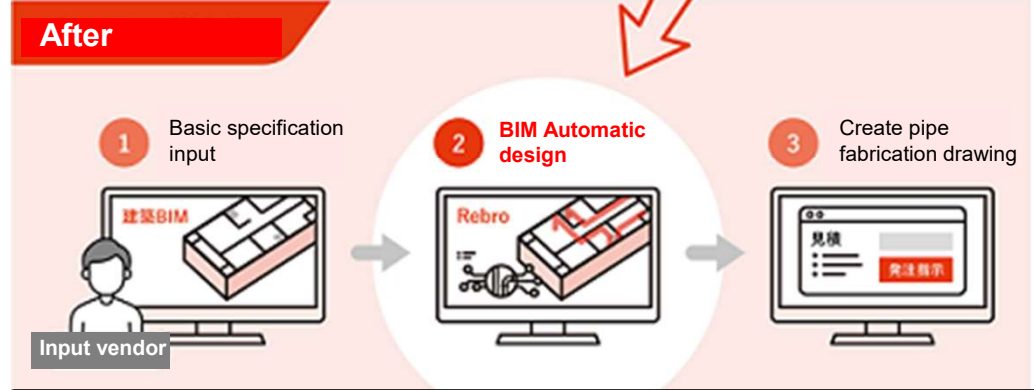

Excavation diagram  
→No need to create from the beginning

Excavation 3D viewer  
→Visual check of excavation shape is possible

# Promoting DX in design ~ Design automation using BIM data ~

Utilizing the features of BIM as a database, we have developed a tool that automatically designs water supply pipe routes based on the floor plan of a residential unit. Previously, we used the floor plans of condominium units to manually set water supply piping routes and build 3D BIM models. This system automatically extracts the necessary information from BIM data, routes water supply piping, and creates a BIM model.

【Automatic design image of water supply piping in 3D】

BIM as a database is suitable for extracting the information necessary for automatic design and importing automatically designed results as a model, making it possible to deploy DX using automatic design in various fields.

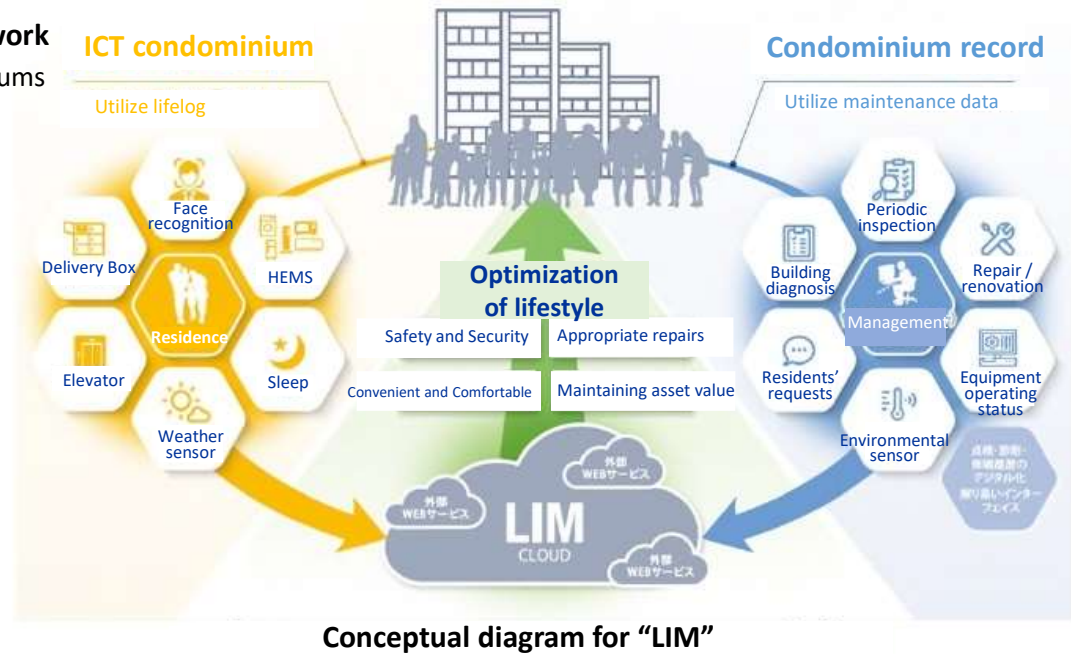

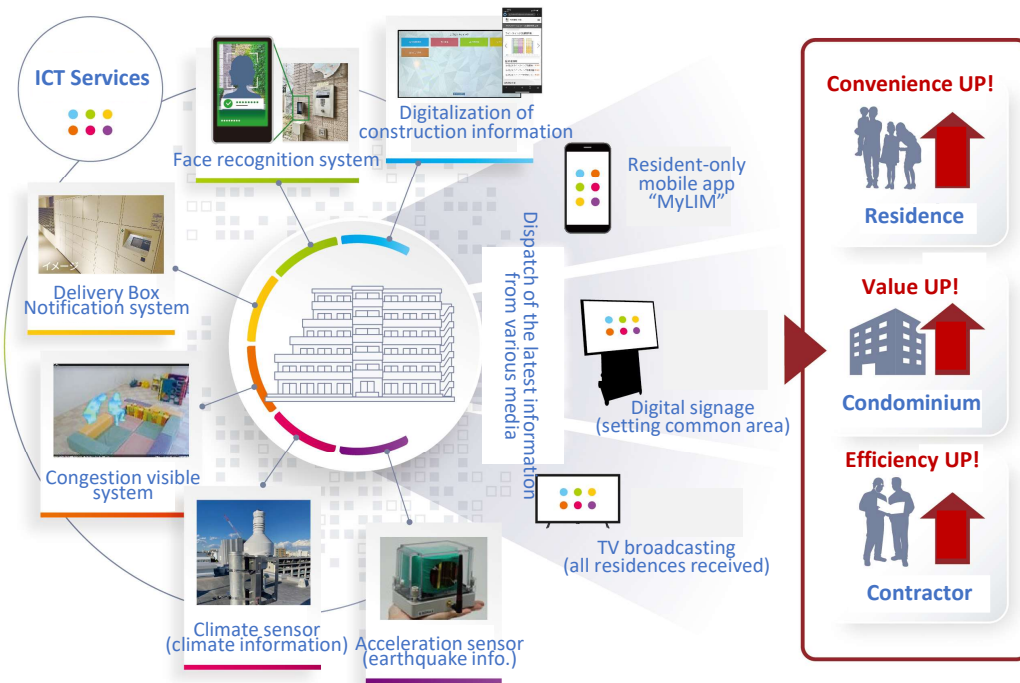

We will continue to improve productivity and work style reform by promoting DX using Haseko's version of BIM.

# Widespread ICT(information and communication technology) condominium

Utilize ICT to promote the creation of high-value-added condominiums. Currently, it is being introduced and tested mainly in rental condos. We aim to create new value by accumulating and analyzing digital data, such as improving tenants' convenience and extending durability.

**Ex.: Demonstration introduction of ICT services at the time of large-scale repair work**  
 "South All City"(Sakai-shi, Osaka) First introduction of ICT services to existing condominiums

## Scheme of the demonstration

Conceptual diagram for "LIM"

## About "LIM (Living Information Modeling)"

Utilizing residents' life logs obtained from authentication equipment and various sensors installed in "ICT condominiums", as well as building and equipment maintenance data registered in "Condominium Records", we call the concept of optimizing their lives "LIM". The Haseko Group is working to improve productivity in the design and construction of condominiums and improve the quality of life for residents through LIM.

# “Sustaina Branche Hongyotoku” ~ Project for Future Creative Residence ~

Residential experimental house that aims to create a future residence that utilizes advanced technology and has net-zero CO2 emissions by completely renovating an existing house.  
Adopted project of "Next Generation Housing Project 2022" of Ministry of Land, Infrastructure, Transport and Tourism

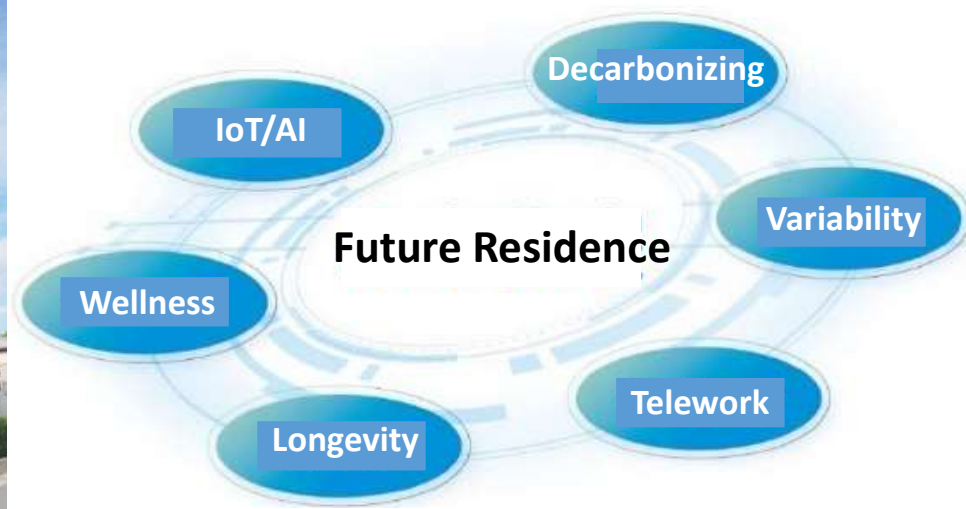

Aiming for net-zero CO2 emissions by improving the energy efficiency of homes and using renewal energy

Residential experimental house for future residence creation with smart home system

- ◆ Renovation with the same functions as a new building using the existing building
- ◆ Update insulation efficiency, Low-E multi-layered glass, and LED lighting
- ◆ Renovation of infrastructure facilities to all-electric
- ◆ Installation of SPG equipment on roofs, outer walls, and balcony handrails
- ◆ Adoption of pure hydrogen fuel cell
- ◆ Introduced “Kenes Green Supply®” environmental value plan of Kanden Energy Solution Co., Inc.

- ◆ Enhancement of crime prevention measures using image analysis by AI
- ◆ Contribution to improved logistics efficiency (reduction of redeliveries) by combining delivery trunk room to each house and unlocking with smart lock at the entrance
- ◆ Verification of sleep quality and fatigue recovery effects by lighting, temperature and humidity, and images using IoT devices

Before renovation

Research and technology development for the future (image)

# Promotion of redevelopment and reconstruction projects

It is more difficult to acquire land for condominiums due to competition from other users, and redevelopment and reconstruction are becoming more important.  
We will continue to steadily work on rebuilding decrepit housing complexes as a particularly important factor.

## Ogawa Housing Apartment Reconstruction Project

Before reconstruction

After reconstruction (image)

## Ise City Eki-mae C District Type 1 Urban Redevelopment Project

Promoting the “BRANCHERA” series of condominiums in regional core cities

## BRANCHERA Sendai-kasuga-cho Jozenji-dori Ryokuchi Residence

**Location:** Kasuga-cho, Aoba-ku, Sendai-shi, Miyagi  
**Structure/Stories:** RC / 15 Stories  
**Units:** 81 units  
**Completion:** Feb. 2026 (planned)

## BRANCHERA Hamamatsu the Residence

**Location:** Hirata-cho, Chuo-ku, Hamamatsu-shi, Shizuoka  
**Structure/Stories:** RC / 15 Stories  
**Units:** 98 units  
**Completion:** May. 2025 (planned)

Promoting the “Renai” series of condominiums mainly in metropolitan areas

## Renai Hanakoganei The Residence

**Location:** Hanakoganei-minami-cho, Kodaira-shi, Tokyo  
**Structure/Stories:** RC / 8 Stories  
**Units:** 162 units  
**Completion:** Jan. 2025 (planned)

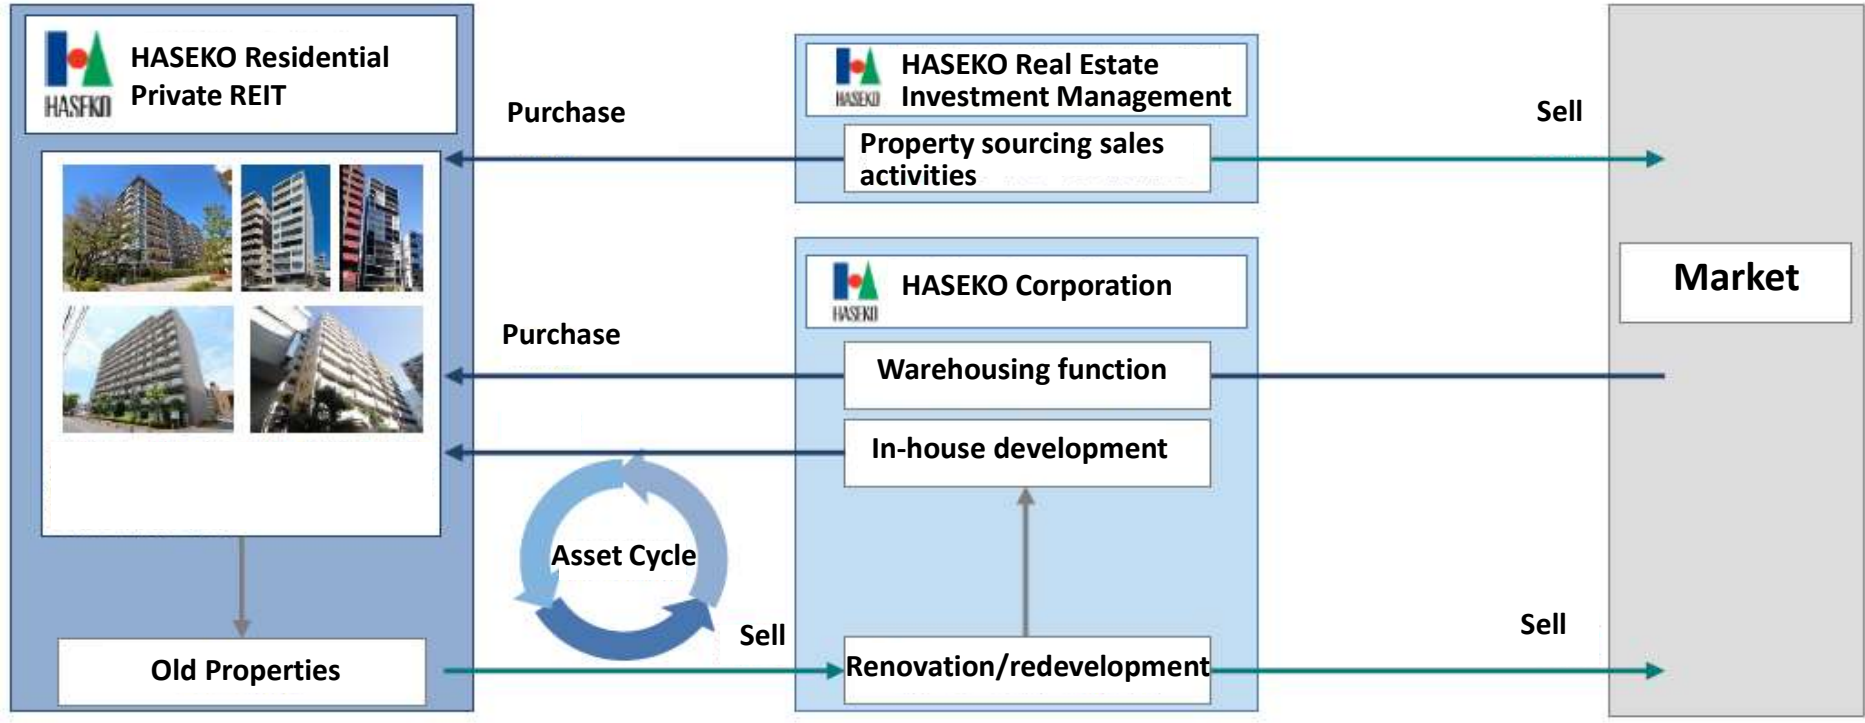

## Renai Esaka Enoki-cho

**Location:** Enoki-cho, Suita-shi, Osaka  
**Structure/Stories:** RC / 11 Stories  
**Units:** 149 units  
**Completion:** Dec. 2024 (planned)

In FY2021, HASEKO started the Private REIT of approx. 20.0 billion yen. In FY2023, HASEKO sold properties of approx. 14.0 billion yen to the private REIT and we also are planning to sell a certain amount of sales in FY2024.

# Response to Climate Change

In accordance with the Haseko Group's climate change response policy, HASEKO ZERO-Emission, formulated in December 2021, the Group has moved forward with initiatives aimed at realizing decarbonization.

## The Haseko Group's climate change response policy "HASEKO ZERO-Emission" (overview)

## Initiatives to reduce CO2 emissions at construction sites

The Haseko Group is promoting the following initiatives at certain sites to reduce CO2 emissions at construction sites. Going forward, we will continue to increase the number of cases of adoption and promotion of these initiatives, while taking the scale and location of project into consideration

Use of GTL fuel (GTL sticker)

Adoption of electric forklifts

Adoption of electric backhoes (trial)

## Promotion of wood use in construction of condominiums

The Haseko Group has worked on research and development of wooden architecture since 2014. project featuring fire-resistant wooden structure on the its top four floors, "(provisional name) Meguro-ku Chuo-cho 1-chome Plan" is scheduled to be completed in March 2025. We will continue our efforts to challenge the adoption of wood in high-rise buildings and expand its application from the current rental condominium to include for-sale condominium development. We will continue to promote wooden architecture to achieve carbon neutrality by 2050.

BRANSIESTA Urayasu was our first completed condominium featuring wooden construction in private-use areas, with the top-floor residential units (14 in total) being constructed from wood.

BRANSIESTA Urayasu

Photo of Top floor unit interior

# Investment in Human Assets

While the construction industry as a whole is facing issues such as labor shortages and rising costs, HASEKO is working to secure human resources in order to secure orders and production systems for high-quality condominium construction and expand the group's overall business. Haseko will focus on creating human resources to develop new businesses for the future.

## Strengthen recruitment and increase starting salary

Haseko Corporation has increased the starting salary for general employees joining in April 2024 as follows.

	2023	2024	UP
Master degree	275,000 yen	<b>320,000 yen</b>	+45,000 yen
University degree	255,000 yen	<b>300,000 yen</b>	

We believe that this increase will be an upfront investment for improving recruitment competitiveness and for the future development of Haseko Corporation. We will continue to promote the recruitment and retention of human resources who will forge the future, and continue to invest in human resources.

## Raising employee awareness of DX promotion: DX Academy

From FY March 2021, the DX Academy was launched under the direct direction of our president in collaboration with Dean and Professor Ken Sakamura of the Toyo University School of Information Networking (INIAD).

We delivered a message from the president to inform all employees that we have opened the DX Academy to deepen their understanding and develop their mindset toward DX.

### “DX Academy” Initiatives to date

- First initiative:** Implementation of the “DX Changing the Mindset Program” for all officers and employees
- Second initiative:** “Innovation Leader Development Program” for selected mid-level and young employees to acquire DX knowledge
- Third initiative:** “DX Literacy Course” to improve the literacy of the management level that leads the organization

## Haseko Group new graduate employment results

We will also enhance the recruitment of mid-career employees.

## Certified as an excellent health and productivity corporation 2024 (Large corporation category ( White 500))

This is the 6<sup>th</sup> time Haseko has been certified as a “White 500”.

The Haseko group promotes health management under the slogan, "There is no successful result without the health of executives and employees." We will continue to aim to become a corporate group that can further earn the trust of our customers by raising the health awareness of our executives and employees and working to improve productivity.

### [Our main health management initiatives]

The Haseko Group has adopted the slogan “There is no successful result without the health of executives and employees,” and has created the "Haseko Group Health Declaration" and “Health Management Strategy Map” in order to aim to be a group where each individual can work with more energy. We will implement various health management initiatives.

Haseko Group’s Declaration of Health:

[https://www.haseko.co.jp/hc/english/csr/employee/health\\_management.html#anc\\_declaration](https://www.haseko.co.jp/hc/english/csr/employee/health_management.html#anc_declaration)
